L-42- Valuation Basis (Life Insurance) as at end June 30, 2024
Name of the insurer :- ICICI Prudential Life Insurance Co. Ltd

1. Data

Policy data is extracted from policy administration systems and checks are carried out to ensure completeness and accuracy of data.

2. Treatment of valuation parameters

The liability valuation calculations have been carried out using an actuarial software. Assumptions for each plan are updated in the model. Specific characteristics of each policy such as age at entry, sum assured, term, etc. are either directly obtained from data or calculated within the model.

3. Valuation method – Methods adopted in the determination of mathematical reserves

In general the method of valuation is the gross premium valuation. The reserve held represents the net present value of benefits and expenses less premiums. The reserves are calculated on a per policy basis. Any negative reserves are zeroised, so that a policy is not treated as an asset. The minimum value of reserves is the higher of guaranteed surrender value, non guaranteed surrender value, and zero.

The following sections contain specific details about reserving for different lines of business.

Non-participating business

Contract status	Category	Applicability	Method
In-force	Individual products	Base plan	Higher of the gross premium valuation (GPV) reserve and surrender value (if applicable) and zero
		Riders	Higher of GPV reserve and unearned premium reserve (UPR) on a policy basis
	Group products – non-participating	All group risk products, except group term with duration less than or equal to one year, and group fund based savings product	Higher of GPV reserve and Surrender value (if applicable) or zero
		Group term with duration less than or equal to one year	Unearned premium reserve
		Group savings product (non-variable)	Policy account value is held as reserve
		Group variable life and pension	Policy account value is held in addition to general fund reserve
		Riders	Unearned premium reserve
Reduced paid up	Individual products	Base plan	Higher of GPV reserve or surrender value on reduced benefit with no future premiums payable
Lapse reserve	Individual products	Base plan	Reserve for expenses till the end of the revival period

Contract status	Category	Applicability	Method
Lapsed/reduced paid up, in respect of those that are expected to revive	Individual products	Reinstatement reserve	<p>Reinstatement rate is applied to the difference between (A) & (B) where,</p> <p>(A) = the reserve assuming contract is In force and (B) = the revival premiums minus commissions payable plus the paid-up/lapsed reserve,</p> <p>Subject to a floor of zero.</p>

Participating business

Contract status	Category	Applicability	Method
In-force	Individual products	Base plan	Higher of the GPV reserve and surrender value (if applicable) and zero, with allowance for future bonus and associated tax and transfers to shareholders
		Riders	Higher of GPV reserve and UPR on a policy basis
	Group products – participating	Base plan	Higher of the GPV reserve with allowance for future bonus and associated tax and transfers to shareholders and face value of liability
Reduced paid up (all)	Individual products	Base plan	Higher of GPV reserve or surrender value on reduced benefit with no future premiums payable
Lapse reserve (all)	Individual products	Base plan	Reserve for expenses till the end of the maximum revival period
Lapsed or reduced paid up, in respect of those that are expected to revive	Individual products	Reinstatement reserve	<p>Reinstatement rate is applied to the difference between (A) & (B) where,</p> <p>(A) = the reserve assuming contract is In force and (B) = the revival premiums minus commissions payable plus the paid-up/lapsed reserve,</p> <p>Subject to a floor of zero.</p>

Unit linked business

Contract status	Category	Applicability	Method
In-force premium paying/ premium holiday	Unit reserves	Unit fund	The unit reserve is the number of units held by the policyholder multiplied by the NAV at the valuation date.
	Non-unit reserves – except for group linked	Life cover, rider benefits and adequacy of charges to cover expenses	For base policy and associated mortality benefit we take the higher of the unearned risk benefit charges and all the projected cash flows. We allow for zeroisation under all contracts at a policy level, so that credit is taken for future positive cash flows only to the extent that they offset subsequent negative cash flows. For riders a higher of GPV reserve and UPR on a policy basis
Lapsed	Unit reserves	Unit fund	Paid up/surrender value to the credit of the policyholders
		Reinstatement reserve	A reinstatement rate is applied to the difference between the full unit value and the paid up/surrender value. We adjust this reserve for death benefits payable prior to revival or foreclosure.
	Non-unit reserves	Adequacy of charges to cover expenses during the maximum revival period. Reinstatement reserve	Projected cash flows as for in-force contracts allowing for zeroisation. The cash flows do not include cost of insurance charges and claims outgo. For pre-September 2010 policies Reinstatement rate is applied to the difference between the reserve assuming contract is in force and the charges on outstanding premiums and non-unit reserve. For post-September 2010 policies the reinstatement reserve is calculated by allowing for refund of surrender penalty, levy of back charges, release of lapsed non-unit reserve and setting up of in-force non-unit reserve, all multiplied by probability of revival, subject to a floor of zero.
Group linked	Non-unit reserves		No reserves are held on account of expenses as charges are currently higher than expenses and expected to remain so. In case of mortality benefits, unexpired risk premium is held.

4. Bonus rates for participating policies

The current year declared reversionary, cash and terminal bonuses and historical reversionary bonus rates given in Annexure I.

4.1. Policyholders' reasonable expectations (PRE)

Due consideration is given to the reasonable expectations of policyholders when making a distribution of surplus. "Reasonable" is not explicitly defined in the regulations and is left to the interpretation of the Appointed Actuary. Our interpretation of "Reasonable" refers to a well-informed, financially literate policyholder.

The main drivers of PRE are currently our point of sale material, the bonus rates declared last year and past communication with policyholders.

4.2. Taxation and shareholder transfers

The gross premium reserve (GPV) includes reserve for transfer and tax. Tax is provided on surplus emerging under participating products. For the current valuation, we have assumed that the participating pension business is tax exempt. However, our interpretation of PRE would be that future bonuses would in any case reflect the taxes charged to the fund. As a result, the reserves would not be changed even if taxes came to be charged.

5. Valuation assumptions

Valuation parameters are set prudently and include margin for adverse deviation (MAD) as required under APS7 issued by Institute of Actuaries of India.

The range (minimum to maximum) of parameters used for valuation for individual and group business as at 30th June 2024 are given in Annexure II and Annexure III respectively.

6. Reserves for incurred but not reported (IBNR) claims

IBNR reserves are required for claims which may have been incurred at the valuation date but which have not been reported to the company. IBNR reserve is held for all group and retail protection products.

04-Jun-24	DLF Limited	POSTAL BALLOT	MANAGEMENT	Reappoint Rajiv Singh (DIN: 00003214) as Whole time Director designated as Chairperson for five years from 9 April 2024 and fix his remuneration	FOR	ABSTAIN	<p>As per IAS, though the estimated remuneration of Rajiv Singh is commensurate with overall size of the business and in line with peers, the remuneration structure is open ended and there is no absolute cap on the payout. IAS has further stated that personal expenses of the Chairperson i.e. travel and medical have been included in the remuneration.</p> <p>As per DLF, the maximum remuneration would not exceed 1% of the consolidated net profit. In the case of the personal expenses being part of the remuneration, the Company stated that the same is in line with the terms of the previous chairman.</p> <p>As Mr Rajiv Singh is from the promoter family, his involvement in the business is key to the operations of the Company. While considering the points raised by the advisory it is important to note that business operations would require active involvement from the keyman and not reappointing Mr Rajiv Singh would be detrimental for the business operations.</p> <p>In view of observations made by IAS and the comments provided by the company, we abstain from voting</p>
06-Jun-24	ITC Limited	NCM	MANAGEMENT	Approve scheme of arrangement for demerger of the hotels business into ITC Hotels Limited (ITCHL)	FOR	ABSTAIN	<p>As per IAS, there is no clarity on the synergy that would accrue or the value unlocking for the shareholders along with the terms of brand usage. It also questions the rationale for holding equity investments in other hotels shares while demerging the hotels business, and the lack of guidance on the divestment strategy or any additional capital support that could be required.</p> <p>As per ITC, the hotel business will benefit from the brand usage and workforce mobility while ITC would benefit from the cuisine knowledge and brand visibility along with consumer engagement for FMCG products, there would be no requirement of any additional capital support and ITC would be open to divestment opportunities when it arises in the future.</p> <p>On the terms of brand usage, ITC guides on an arrangement between ITC and ITC hotels for a license fee. Further the company has stated that it classifies the investment in other hotels as financial investments and hence would continue to hold on to them.</p> <p>Given the company's response, we believe that the resolution would help unlock shareholder value by demerging the Hotel business from the others. While we cannot comment on the structure of the deal but the resolution does not go against the statutory requirements nor there are any concerns on the corporate governance side of the transaction. Hence, we abstain from voting</p>

20-Jun-24	Reliance Industries Limited	POSTAL BALLOT	MANAGEMENT	Appoint Haigreve Khaitan (DIN: 00005290) as Independent Director for five years from 1 April 2024	FOR	FOR	IIAS believes that as Senior Partner of Khaitan & Co., Haigreve Khaitan's responsibilities are equivalent to a whole-time directorship. Therefore, his high number of directorships on listed companies is not in keeping with the spirit of the regulation. Also, Mr. Khaitan has represented and advised the company on internal restructuring and multiple large transactions. As per the company the fees paid to Khaitan & Co forms a small part of the total revenue of the firm and is below the prescribed limit. Additionally, Mr. Khaitan is one of the 11 members of the executive committee of the firm. Therefore, his role at the firm cannot be equated with that of a Whole Time Director. We believe that Haigreve Khaitan brings with him rich and diverse experience which may prove to be beneficial for the company and his role as a Senior Partner in his firm should not be considered as that of a Whole Time Director. In view of the above, we vote in favour of the resolution.

Al Rumayyan is the Governor and Board Member of Public Investment Fund of Saudi Arabia (PIF) and Non-Executive Chairperson of Saudi Arabian Oil Company. IIAS has noted that in FY21, PIF acquired a 2.32% stake in Jio Platforms Limited and 2.04% stake (on a fully diluted basis) in Reliance Retail Ventures Limited. As per IIAS, given the association of Mr. Yasir Othman with both PIF and the company, he must be reappointed as a non-independent non-executive director. As per the company, Mr. Yasir Othman is not on the board of Reliance as a nominee or representative of PIF as PIF is one of the many minority shareholders in Jio Platforms and Reliance Retail Ventures. We believe Mr. Yasir Othman brings with him experience and skills which are beneficial to the company and he is an expert in his own right. Also, PIFs investment in other Reliance entities as mentioned above is not material enough for him to be considered as a representative of PIF. 29-Jun-24	Zomato Limited	POSTAL BALLOT	MANAGEMENT	Approve Zomato Employee Stock Option Plan 2024 (ESOP 2024) under which 182.6 mn stock options can be granted	FOR	ABSTAIN	As per IIAS, the disclosure on performance metrics based on which options will be vested is unclear. The company has provided a large list of parameters with the flexibility given to the NRC to choose one or more of the lists of parameters. Further, the parameters contain measures that are "adjusted": it is unclear to IIAS what these are adjusted for and if there are any further built-in flexibilities towards such "adjustments". Although the ESOP plan will result in just 2% equity dilution, its impact on Zomato's profitability is high – the annual cost (Rs 6.6bn annually) is higher than Zomato's FY24 pre-tax profits. Therefore, they do not support the resolution. The company has clarified that it has four key businesses currently and each of these businesses are at different stages of evolution and hence the performance criteria would need to differ from business to business. The relevance of metrics for each business will also keep changing over the next few years and hence, they have given the NRC the flexibility to choose the metrics at the time of grant. Of the 8 metrics listed, the 2 metrics that have the term 'Adjusted' are – Adjusted Revenue and Adjusted EBITDA and these metrics are the headline business metrics that company has been reporting since IPO. As per the company these terms are well understood by shareholders and research analysts that track the Company. Also, the cost should be evaluated in the context of the expected growth in topline and profits of the business. In view of observations of IIAS and the response provided by the company we abstain from voting.
